Profile

Enthusiastic and detail-oriented Computer Science undergraduate with a strong foundation in front-end development, cross-platform mobile app development using Flutter, and a passion for building interactive web applications. Experienced in working with modern tools and frameworks like React, Blazor, and cloud services like AWS. Adept at applying theoretical knowledge to real-world projects in both web and data science domains.

Experience

Frontend Intern, DeveloperHub   07/2025 – Present
- Developed user-facing features using HTML, CSS, and JavaScript.
- Maintained clean coding standards throughout development.

Frontend Intern, CodeAlpha   07/2025 – Present
- Designed wireframes for product changes based on customer feedback.
- Ensured code quality and adherence to best practices.

Education

Bachelor of Computer Science, Air University   2027
Expected Graduation: July 2027

Skills

Programming
C++, JavaScript, Dart, HTML, CSS

Frameworks/Libraries
React, Flutter, Blazor, Bootstrap

Soft Skills — Beginner
React,Machine Learning,Data Science

Tools/Platforms
Git, AWS Cloud

Projects

CricketVerse - PSL Dream XI (Blazor)
Built with Blazor WebAssembly, Bootstrap, and JWT Auth. Features: Dream team builder, live match tracking, dark mode.

Multivariable Calculus Interactive Tool (Streamlit)
Visualizes gradient descent and loss surfaces using SynIPy, NumPy, and Plotly.

Frontend Projects, Image Gallery, Calculator, Portfolio Site, Music Player (HTML/CSS/JS)

Certifications

- AWS Cloud Practitioner
- Introduction to Front End
- Basic of Machine Learning
- Machine Learning Using Python
- Web Development
- Basic of Data Science
